

Inquiry Folders

Purpose: to organize various materials used during inquiry units

- Inquiry Folders can be made using heavy Bristol board. Fold the Bristol board into three equal sections width-wise. Create a pocket across the bottom of the folder by folding up about a third of the way. Attach an **Inquiry Folder cover and labels** to denote sections: Inquiry Notebook, Helpful Guidelines (e.g., conducting interviews), Notes from Research (R.A.N. Chart, photographs, maps, etc.), and Response Options (sharing of learning).
